LETTER OF RECOMMENDATION

It is my great pleasure to recommend **Mr. Manav Mineshkumar Patel (ID: 22DCE079),** a student of the Department of Computer Engineering, Devang Patel Institute of Advance Technology and Research (DEPSTAR), Charotar University of Science and Technology (CHARUSAT), for admission to your esteemed university.

I had the opportunity to teach Manav in four courses — **Computer Concepts & Programming, Data Structures & Algorithms, Cryptography & Network Security, and Blockchain Technology** during his four years of study. Through these interactions, I have been able to closely observe his academic performance, technical understanding, and personal growth.

Manav Patel has consistently shown a keen interest in computer concepts, computer security, blockchain technologies, and Data Structures & Algorithms. He demonstrated a good understanding of fundamental data structures and applied algorithmic thinking effectively when solving problems. He has a clear and logical approach to problem-solving and can relate theoretical concepts to real-world applications effectively. His participation in class discussions and his curiosity to learn beyond the syllabus reflect his enthusiasm for learning and innovation.

In addition to his academic strengths, Manav has actively participated in various technical activities. He took part in **coding event relay and blind coding contests** during university tech fest, where he demonstrated strong logical thinking and quick analytical decision-making under pressure. He also worked on a **blockchain-based case study focused on secure and transparent election systems**, showcasing his ability to apply modern technologies to socially relevant problems.

I have always found Manav to be sincere, positive in attitude, and respectful in his behaviour. He works well in teams, supports his peers, and approaches challenges with calm dedication. Overall, he is a hardworking, disciplined, and intellectually curious student. I am confident that he will excel in his higher studies and make a valuable contribution to your academic community. I strongly recommend him for admission to your university.

Please let me know if you need any further information. Thank you for considering his application.

Sincerely,

Dr. Khushi Patel
Assistant Professor & Training and Placement Representative
